

# SCALABLE EXPERTISE FOR YOUR IT JOURNEY

Integration and Performance Services from HPE Pointnext Services

# CONTENTS

---

# **DRIVE IT EFFICIENCY, PERFORMANCE AND TRANSFORMATION**

**“HPE took the time to understand our aims and what we did as a business and they built a plan around meeting those goals. They brought in subject matter experts who dealt with real-world problems and were able to apply their expertise to our situation.”**

- Steve Pratt, Chief Technology Officer, CenterPoint Energy

**“The HPE Pointnext Services team gave us advice that saved us time. When we asked if we should use configuration A or configuration B, they had the experience to tell us which option was best for us.”**

- Francesco Del Citto, Head of CFD Methodology, Alfa Romeo Sauber F1® Team

Improving IT performance and efficiency remain critical to support business growth and innovation. Deploying new solutions that promise to deliver faster time-to-value and ensuring you have the skilled specialists and resources needed to keep them running is more important than ever before. But managing traditional applications while deploying a wide range of new style applications, such as mobility, Big Data analytics, and cloud-native apps, is creating significant challenges for IT staff. The rapidly changing technology landscape is becoming increasingly complex, while budgets are static or shrinking.

Each business and IT environment has unique requirements. Whether you are lacking the technology expertise or resources required during the course of your IT solution lifecycle or trying to understand the benefit of adopting a new technology for your business, then look no further. Integration and Performance Services from [\*\*HPE Pointnext Services\*\*](#) offer the expertise you need, every step of the way, accessible when, where, and how you'd like it.

# WHY CHOOSE HPE POINTNEXT SERVICES?

---

## **Benefit from innovation built on HPE intellectual property**

This lowers your risks and costs using proven best practices, automation and methodologies that have been tested and refined by HPE experts through 11,000 IT projects a year.

## **Choose from customized, standard or turnkey solutions**

Get the ultimate in flexibility with standard deliverable packages for an off-the-shelf solution, or custom services tailored to meet your individual needs.

## **Get help when, where, and how you need it**

Tap into a global delivery organization in more than 80 countries. Integration and Performance Services are available directly from HPE Pointnext Services or via our global channel partner network.

## **Work with best-in-class ecosystem partners**

Accelerate your business with experienced, certified experts who can assist with a wide range of HPE and multivendor technology.

# BOOST IT PERFORMANCE AND MAXIMIZE YOUR RETURN ON INVESTMENT

**“Having the HPC clusters pre-integrated by HPE saved us quite a lot of time in deployment. It’s a real advantage for getting our new service up and running faster with minimal issues.”**

- Hans Rickardt, HPC Solution Architect, ADC

# WITH YOU EVERY STEP OF THE WAY

Integration and Performance Services from HPE Pointnext Services are designed to address customer challenges at every stage of the product or solution lifecycle.

### 1. Advise, Design and Transform

I need to evolve my IT environment. Help me understand the options, value and benefit.

Based on my IT strategy, help me design and architect the solution in context of my existing environment and business strategy.

### 2. Deploy

I have a detailed solution. Guide me on how I can best deploy into my environment, either using Factory Express or onsite deployment.

### 3. Integrate and Migrate

Help me integrate my new IT into my existing environment and migrate critical data safely, reducing any disruption and minimizing future maintenance.

### 4. Operate and Improve

Help me get the best performance from my existing IT so I can stretch my limited budget further.

Help me address my skills and resource barriers to improve operational efficiency.

Show me how to evolve my IT environment with the latest technologies to achieve maximum value.

### 5. Retire and Sanitize

Help me decommission my old IT safely, sanitize my data and guide me on the options for disposal.

## Integration and Performance Services

Our professional, operational and technical services can be leveraged to complement your IT team, supplementing with additional skilled resources and value-added services to achieve your IT project and performance objectives. By speeding up time-to-production for new purchases and technology transformation projects, we help you achieve maximum return from your IT investment.

If you are planning to improve IT with the latest enhancements in technology, we can help you design, test and build the deployment plan. Maybe you're considering implementing a hybrid cloud model, with a mix of private and public cloud? We can guide you on the merits of these options, work closely with you to design the right mix of hybrid cloud and create an implementation plan to deploy alongside your existing infrastructure.

If you already have a plan in place, we can help you deploy and integrate the required hardware and software, and configure them correctly.

Once your IT infrastructure is operational, HPE Pointnext Services can help you enhance operational efficiency and maximize IT performance with technical services provided on an as needed basis or on a pre-set schedule. We can help you train and prepare your operational staff on the latest technologies and best practices for infrastructure management. Finally, as your IT equipment reaches end-of-life, we can help decommission and sanitize ready for disposal or re-deployment.

# EXPERT HELP THAT TAKES YOUR DIGITAL ENTERPRISE TO THE NEXT LEVEL

**“HPE helped ensure our new infrastructure was up and running the fastest way possible, so we could quickly take advantage of new capabilities.”**

- Patrick Bédard, Director of Pedagogy and Technology, Université du Québec
